GitHub: https://github.com/anurag-yv Mobile: +91-9129253159

Skills

- **Languages**: Java, C++, JavaScript, C, Python, Kotlin
- **Frameworks**: Spring Boot, HTML and CSS, Tailwind CSS, Node.js, React, Next.js
- **Tools/Platforms**: MySQL, MongoDB, PostgreSQL
- **Core CS:** Data Structures & Algorithms, Software Development Life Cycle (SDLC), System Design
- **Soft Skills**: Problem-Solving, Leadership, Adaptability, Time Management

Internship

Web Development Intern - Elevate Labs | Certificate September 2025 – November 2025

- Crafted a full-stack E-commerce platform featuring an integrated admin panel, secure Stripe checkout, advanced search and filtering, and role-based authentication.
- Enhanced operational efficiency with real-time inventory and order tracking, improved user navigation, and strengthened security for admins and customers.

  Technologies: Next.js, MongoDB, Tailwind CSS, Node.js, Stripe API, JWT Authentication

Projects

Employee Transport Management System | GitHub February 2026

- Engineered a Spring Boot RESTful backend for employee transport management with route creation, trip scheduling, and seat booking, supporting secure, role-based access for admins and employees.
- Integrated JWT-based authentication and Spring Security with transactional booking logic and real-time capacity validation to prevent overbooking and ensure data consistency under concurrent requests.
- Designed a clean layered architecture using Controllers, Services, Repositories, DTOs, and global exception handling, enabling scalable API design and efficient backend maintenance.

  Tech: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, MySQL/H2, REST APIs

Waste Management System (WMS) | GitHub | Live December 2025

- Developed a full-stack Waste Management System featuring real-time waste tracking, smart collection scheduling, and analytics dashboards to improve operational efficiency and transparency.
- Built secure RESTful APIs with JWT authentication and role-based access, integrated with MongoDB for scalable data storage and analytics of waste statistics.
- Implemented responsive UI for data visualization and interactive features using React, enhancing usability and real-time interaction for admins and users.

  Tech: MERN (MongoDB, Express, React, Node.js), JWT Authentication, REST APIs, Chart.js

Certificates

- Computational Theory: Language Principle & Finite Automata Theory | **Link** August 2025
- Competitive Programming - Programming Pathshala | **Link** July 2025
- Cloud Computing – NPTEL | **Link** April 2025
- Computer Communications – Coursera | **Link** November 2024

Achievements

- Attained a global rank of 1168 among 38k+ participants in LeetCode Weekly Contest 484 January 2026
- Recognized for outstanding performance as a Web Development Intern November 2025
- Completed Deloitte Australia Virtual Job Simulation, applying data-driven problem-solving July 2025

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.80*** *August 2023 - Present*
- **Vardhman Public School** Mussaffarganj, Mirzapur
  Intermediate; ***Percentage: 93.40*** *April 2022 - March 2023*
- **Vardhman Public School** Mussaffarganj, Mirzapur
  Matriculation; ***Percentage: 95.60*** *April 2020 - March 2021*
